Fri, 22 Jun 2018 07:45:00 GMT - Millions of technology users are trying to survive in the new world of bits with only the skills of computer literacy. They know how to send an e-mail and print a document, but they're powerless against the avalanche of incoming bits. Without managing their bits, users are constantly buried; not because bits are a bad or destructive force (far from it), but because users aren't applying the right skills or the right mindset.
