Tue, 23 Dec 2008 15:34:00 GMT - A Guide for Parents of Babies with Neonatal Abstinence Syndrome What is

neonatal abstinence syndrome? During pregnancy, almost every substance in your blood can pass to your baby. This means the baby shares the medicines, drugs, nicotine, alcohol, herbal remedies, and other substances you use while pregnant. Neonatal abstinence syndrome (NAS) is when a baby has withdrawal symptoms if his or ...

A Guide for Parents of Babies with Neonatal Abstinence ... -

- If a parent is unsure why a baby is crying, she can continue to explore potential causes while comforting him in a way that accepts his emotions as genuine and acceptable. The parent can allow her baby to express emotion without denial or provocation, while soothing him in a way that teaches his brain healthy forms of emotional regulation.
